TET Trade Delegation to SERBIA & CROATIA

B2B Meetings

Belgrade | Sep 29, 2026
Zagreb | Oct 01, 2026

Participant Catalogue

White Goods 

Electronics 

Cables 

Electricity Production and
Distribution Equipments 

ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION

**ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION**

Technological Advantages

- Efficient and up to date equipment capacity
- Production flexibility
- Production capacity in international standards
- Strong industrial structure
- Product diversity
- Well trained and experienced work force

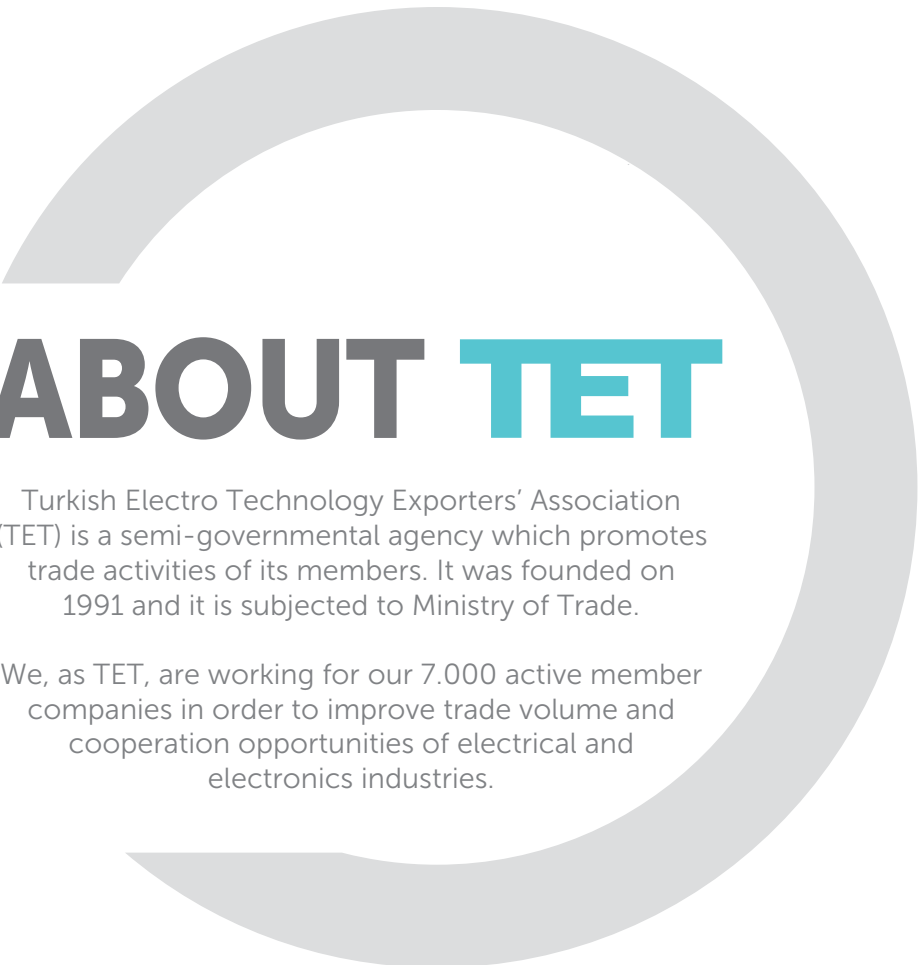

Geographical Advantages

- Short time of delivery
- Neighboring the largest markets in the world
- Largely suitable for both land and marine transportation
- Well developed logistics network

Market Advantages

- An appealing conjuncture for both foreign and domestic capital investments
- EU Customs Union Membership
- Increased competitiveness in international markets
- New employment opportunities
- Start-up friendly legal arrangements
- Increased domestic market demand

ABOUT TET

Turkish Electro Technology Exporters' Association (TET) is a semi-governmental agency which promotes trade activities of its members. It was founded on 1991 and it is subjected to Ministry of Trade.

We, as TET, are working for our 7.000 active member companies in order to improve trade volume and cooperation opportunities of electrical and electronics industries.

ACTIVITIES OF TET

CO-OPERATION

Developing co-operations with international institutions

FAIRS

Organizing and participating in trade fairs

DELEGATIONS

Arranging "Trade Delegations" & Organizing "Buying Missions"

MONITORING & REPORTING

Monitoring and providing sectoral data, reports and market research analysis

Türkiye

2M KABLO

ABOUT US

Established in Istanbul in 1993, 2M Kablo, produces standard and special cables for energy, industry, petrochemical, transportation, and building sectors, with its fully equipped, state of the art technology, specialist staff, and development with the open structure in the sector and a pioneering company by considering investment as one of the most important objectives.

2M KABLO, which is located in Tekirdag with a total area of 25.000 m², has been cooperated the solution partner of many companies and projects in Türkiye and abroad since its establishment. Local sales offices are located in Istanbul and Ankara. 2M Kablo, which incorporated in 2024 in the United States of America and Europe, has sales offices in Texas and Germany.

2M Kablo export to more than 80 countries on 6 continents. 2M Kablo is one of Turkey's global brand in the cable industry, with export volume increasing every year Export Achievement Award in 2008, the year in 2011 and 2012 was awarded the Honorary Award IMMIB export. 2M Kablo which was listed in Türkiye's second 500 Industrial Enterprises list published by the Istanbul Chamber of Industry (ISO) for the first time in 2016, was also awarded the Best Managed Companies in Türkiye's Cable Industry in 2019 by Deloitte organization.

ALTEZ ELEKTRONİK AYDINLATMA

ABOUT US

Altez was founded in 2004 with the objective of producing emergency and safety lighting fixtures. Our main target is to provide our customers complete solutions to secure their projects during emergency operations.

With the help of our experienced R&D engineers, we follow up industrial trends and developments to adapt our products & technology to them. Emergency lighting plays an essential role in security of environments used and for that we do our best to maximize our quality. The company is ISO certified and majority of our products are certified by international labs including CB and T.S.E.

PRODUCTS AND SERVICES

Emergency lighting system,
Emergency Directional Luminaires,
Central Battery Systems,
Emergency Lighting Fixtures,
Sensor Light, Emergency lighting
kits, Sensor-operated emergency
lighting fixture, Rechargeable
Batteries, Sensors, Tunnel Lighting
Fixtures, Wireless emergency
lighting systems, DALI Emergency

ABOUT US

Beta Enerji ve Teknoloji A.Ş. is a technology company operating in the energy sector with modern facilities. Located in the Adana Hacı Sabancı Organized Industrial Zone, our factory specializes in the production of oil-type and dry-type transformers, power transformers, as well as special design transformers. With an annual production capacity of 25,000 transformers, we are one of Turkey's leading energy brands. We embrace sustainability and offer solutions tailored to the needs of the energy sector.

Our company is certified with internationally recognized quality management systems, such as ISO 9001, ISO 14001, ISO 18001, and holds CE, TSE, and KEMA certifications. Additionally, we manufacture our products according to Eco Design principles, meeting European standards for energy efficiency and environmental sustainability. With a customer-focused approach, we aim to understand the energy sector's needs and deliver reliable solutions, making us an indispensable partner.

Beta Enerji offers a wide range of transformer solutions for various power and voltage levels. Our product portfolio includes dry-type transformers, oil-type transformers, power transformers, and special design transformers. These products are designed to optimize energy efficiency and ensure effective energy transmission.

Through continuous innovation and development at our R&D center, we remain committed to delivering advanced solutions for the energy industry. Our focus is on creating sustainable and efficient solutions to meet the future needs of the sector.

PRODUCTS AND SERVICES

- Dry-Type Transformers
- Hermetically Sealed Transformers
- Conservatory Transformers
- Power Transformers
- Special Design Transformers

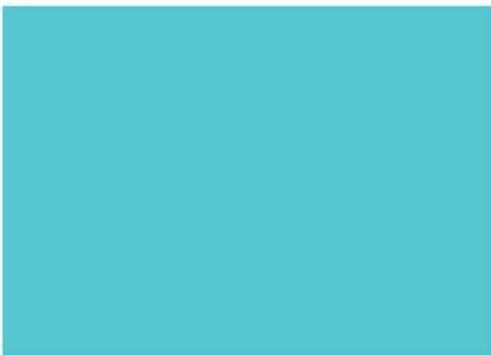

CERTIFICATES

- ISO 9001 - Quality Management System
- ISO 14001 - Environmental Management System
- ISO 45001 - Occupational Health & Safety Management System
- CE – European Conformity
- TSE - Turkish Standards Institute Compliance
- KEMA - International Certification for Product Quality and Safety

ABOUT US

CANOZAN is established in 1986 on the sector of panel building for industrial automation & power distribution. Cabinets of CANOZAN are used in hundreds of different projects as low voltage distribution, mcc-automation, and compensation panels. R&D department develops product range of industrial panels and cabinets according to feedback and request of domestic and overseas customers.

CANOZAN has 3.000 m² closed of 6.000 m² total facility area for production, test center, warehouse. Product of WEPAN is continuously developed solution of electrical assembled processes and follows international standards. CAD-CAM production process, CNC manufacturing machines and robotic powder coating process are for the computer integrated production for standardized of production quality. WEPAN has standard of IEC 61439-1-2 and protection class of form IP 42 to IP 66. Panels and enclosure is increased added value with theses test and certificates in the sector. WEPAN continuously develops solution for sector of electrical assembled panels and improved goal of customer satisfy with professional staffs that have certificate of ISO 9001-2008.

PRODUCTS AND SERVICES

- WK series TERMINAL BOXES
- WM series WALL MOUNTED ENCLOSURES
- WD series FLOORSTANDING CABINETS
- WH series OUTDOOR CABINETS
- WR series RACK CABINETS
- SS series STAINLESS STEEL 304/316

- ISO 14001
- ISO 45001
- SEISMIC TEST CERTIFICATE
- EN 62208
- EAC CERTIFICATE
- CE CERTIFICATE
- IEC 61439 TYP TEST CERTIFICATE

GENPOWER GENERATOR

ABOUT US

Genpower Generator, which started its activities in Ankara OSB in 2001, has been providing service to meet all energy needs since its establishment. It continues to offer the most reliable form of uninterrupted energy to its solution partners for 24 years through its state-of-the-art products. Genpower Generator has a wide import network of up to 120 countries with a 100% domestic and national production approach. Moreover, it has the feature of being the "world's largest generator factory" with its factory built on a 219,000 m2 land and with a 60,000 m2 closed area. It is one of the leading manufacturers in Turkey and the world, with its state-of-the-art production system and a generator production capacity of 60,000 units/year in its current factory environment. Genpower employs cutting-edge technology to produce a wide range of diesel and gasoline generators from 1 KVA to 3300 KVA along with welding generators, light tower generators, water pump generators, alternators, and synchronized systems, all characterized by efficiency and cost-effectiveness. Genpower Generator's widespread recognition, both domestically and globally, underscores its commitment to innovation and excellence in addressing power needs.

PRODUCTS AND SERVICES

From 1 kVA to 3300 kVA;

- Diesel Generators
- Gas Generators (Natural Gas, Biogas, LPG)
- Portable Generators (Diesel & Gasoline)
- Light Towers
- Welding Generators (Diesel & Gasoline)
- Water Pumps

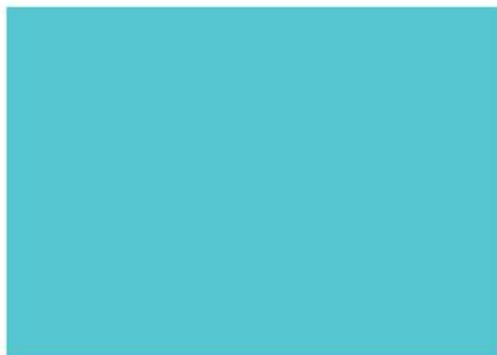

CERTIFICATES

- Deutz Diesel Generator Quality Certificate
- Cummins Diesel Generator Quality Certificate
- EC Declaration Of Conformity
- Manufacturing Qualification Certificate
- ATEX Certificate
- ISO 9001-2015
- ISO 10002:2018
- ISO 14001-2015
- ISO 31000:2018
- ISO 45001-2018
- Industrial Registration Certificate
- Seismic Test Certificate
- After-Sales Service Qualification Certificate
- Neutral Salt Spray Test-2500 Hours
- Light Tower Generator Quality Certificate
- Inter Engine Diesel Generator Quality Certificate
- Perkins Engine Diesel Generator Quality Certificate
- Noise Regulation and Noise Emission

EUROMEK ELECTRIC

ABOUT US

Euromek Electric is a specialized manufacturer of oil-immersed medium and highvoltage instrument transformers for power transmission and distribution systems. The company focuses exclusively on the design and production of current and voltage transformers, serving utilities, EPC contractors, and industrial projects.

With strong engineering expertise and a quality-oriented manufacturing approach, Euromek Electric produces equipment in compliance with IEC/IEEE standards and customer-specific technical requirements. The company offers reliable and accurate measurement solutions for both protection and metering applications.

Thanks to its flexible production capability and experienced technical team, Euromek Electric supports international projects by providing consistent product quality, technical documentation, and responsive engineering support.

PRODUCTS AND SERVICES

- Oil-Immersed Current Transformers (CT)
- Oil-Immersed Capacitive Voltage Transformers (CVT)
- Oil-Immersed Inductive Voltage Transformers (IVT)
- Design and manufacturing according to IEC/IEEE standards and utility specifications
- Type testing, routine testing, and factory acceptance test (FAT) support

CERTIFICATES

- ISO 9001
- ISO 14001
- ISO 45001
- IEC 17025

GENÇLER KABLO

ABOUT US

GENCLER KABLO is a family owned company founded in 1979, Istanbul - TURKEY. At the beginning of 1990's decided on branching at White House Hold Industry and gave its all effort to be one of the reliable and longlasting partner for the Appliance Sector. This was the first milestone of the company to increase its production capability, quality and mentality. In 1992 PVC Granule production became a must to stabilize the quality of the cables, ended with the purchase of a well known PVC Compound producer, which is the second milestone of GENCLER KABLO.

With the increasing needs of the sector, in 2001 third milestone was created by an investment on new product group, Power Cords. Next step was certifying its products and company by a global establishment, which is the fourth milestone of the company, getting VDE certificates and ISO certification from VDE Germany in 2005.

Today, we are proud of being main and sub supplier of White House Hold Industry, serving with our; Wire & Cables, PVC Granules, Power Cords. GENCLER KABLO became a global player on market, exporting its products mainly to Europe and rest of the World. Our aim will never be, to be the biggest player on the market but will be the qualityest and most reliable producer where ever our name is mentioned. This is the driving force behind us.

PRODUCTS AND SERVICES

- PVC Granule
- Cable
- Wire
- Power Cords Sets
- Assambled Cables
- Mini Harness Groups

GRUP İMAJ AYDINLATMA

ABOUT US

Grup İmaj Lighting, where innovation meets sustainability.

Since 1996, we've been a pioneer in the lighting industry, pushing the boundaries of technology to create eco-friendly products that light up the world while preserving our planet.

Our journey began with producing ballasts, followed by expanding into fixture production. For the last 10 years, we have been at the forefront of LED technology, focusing on future-driven, technological advancements that deliver cutting-edge lighting solutions.

KIRAÇ METAL

ABOUT US

Kıraç Metal, established in 2002 as part of the Kıraç Group, is a leading manufacturer of metal-based solutions for the energy and industrial sectors. The company operates from its modern production facility located in Eskişehir Organized Industrial Zone, with a monthly production capacity of approximately 1,000 tons.

Kıraç Metal specializes in the production of solar panel mounting systems, cable trays and ladders, supporting components, and industrial-type electrical panels. With its flexible manufacturing infrastructure, the company is able to deliver customized solutions tailored to specific project requirements.

Backed by an experienced and dynamic team, Kıraç Metal has successfully completed numerous projects and has become a preferred partner thanks to its high-quality products, customer-oriented approach, and on-time delivery policy. The company exports primarily to Europe while serving a wide range of international markets.

PRODUCTS AND SERVICES

- Solar Panel Mounting Systems (Ground & Rooftop Structures)
- Cable Management Systems (Cable Trays & Cable Ladders)
- Steel Support Structures and Mounting Components
- Industrial Electrical Enclosures and Panels
- Custom Metal Fabrication and Project-Based Production
- Hot-Dip Galvanized Steel Products
- Engineering, Design, and Technical Support Services
- Project-Specific Manufacturing Solutions for Solar (PV) Projects

OPTIMUS SOLUTIONS

ABOUT US

Optimus Solutions is a technology driven company specializing in intelligent building automation solutions, with a strong focus on KNX based systems. Founded with the vision of creating reliable, scalable and future ready products, Optimus Solutions has grown into a trusted manufacturer serving both local and international markets.

With deep expertise in building automation, electronics and embedded software, Optimus develops a wide portfolio of products designed for residential, commercial and industrial applications. The company's solutions cover areas such as lighting control, HVAC, shading, energy management and system integration, enabling smarter, more efficient and sustainable buildings.

At the core of Optimus Solutions lies a strong R&D culture. All products are designed and developed in house by experienced engineering teams, ensuring high quality, flexibility and long term reliability. By closely following international standards and emerging technologies, Optimus continuously adapts its solutions to meet the evolving needs of the global automation market.

Optimus Solutions places great value on collaboration and long term partnerships. The company works closely with system integrators, designers and distributors to deliver practical, user focused solutions that perform reliably in real world projects. This approach has enabled Optimus to successfully expand its presence across multiple regions and international markets.

Driven by innovation, technical excellence and a commitment to continuous improvement, Optimus Solutions remains focused on shaping the future of smart buildings through intelligent, connected and sustainable automation technologies.

PRODUCTS AND SERVICES

- Automation Switches
- Touch Panels
- Multi Sensors
- Combo Actuators
- PWM LED Driver
- Universal Interfaces
- Digital Input Devices
- System Devices: KNX IP Router (Secure), KNX TP Line Coupler
- Power Supplies
- AC Gateways
- KNX Logic Module
- Wireless Gateway
- Switch Unit, Shutter/Blind Switch Unit
- Universal Dimmer Unit, DALI Controller
- Flood Detector, Motion Detector, Window/Door Detector
- Thermovalve, Temperature Control Unit
- Socket Unit, Input Contact Converter, Remote Control

ABOUT US

As Royal Home Appliances, we are a Turkish manufacturer specializing in small home appliances for 28 years. Starting its production journey with the Instant Water Heater, Royal Home Appliances has now become a leader in small home appliances production with a product range exceeding over 1,000 items. Royal Home Appliances impacts millions of lives in Turkey and across the globe, contributing significantly to the economy. Now in its 28th year of production, the company continues to shape its industry with innovative approaches.

Royal Home Appliances provides end-to-end services to its business partners, including market research, product design, R&D, molding, manufacturing, OEM production, and logistics. The company operates with a fully integrated ERP system, ensuring seamless operations. All production phases undergo independent quality control processes. With an annual production capacity exceeding over 5,000,000 units, Royal Home Appliances is one of the largest manufacturers of electrical appliances in the Middle East and Europe, exporting to 45 countries worldwide and securing a strong position in the global market.

The company operates from two main locations in Istanbul Beylikdüzü, with a 30,000 m² central factory building, a 15,000 m² secondary production facility, and a 20,000 m² external warehouse. In line with its goals to expand production capacity each year, All products are certified with internationally recognized standards such as CE, LVD, EMC, ROHS, and REACH.

PRODUCTS AND SERVICES

Royal Home Appliances produces; Hair dryer, Vacuum cleaner, Instant Water Heater, Fan, Blender, Milk Shaker, Coffee and Spice grinder, Meat Grinder, Chooper, Mixer, Coffee Maker, Tea Maker, Kettle, Air fryer, Pet foods and water container etc. Also Royal can make OEM and ODM different kind of small home appliance projects.

SOLEN KABLO

ABOUT US

Solen Kablo is young, dynamic and flexible company founded in 2021 as a brand-new cable manufacturer aimed to produce only Solar Cables that having very professional team with years of experiences.

All phases of production are carried out in our new-built up factory 100% integrated with fast and modern state-of-the-art machinery for solar cable production. Besides that, we are proud of using nature-friendly, renewable energy all these processes of the production phases.

Why choose Solen?

- Producing only Solar Cables with TUV certificate.
- Keeping stock portfolio for 4 / 6 / 10 mm² red & black cables.
- Offering the best quality with reasonable prices.
- Dca CPR rating – for both CE - European and UKCA – United Kingdom
- CE mark - complaint
- AD8 - complaint
- Committed to philosophy being true partner with reputable references.

PRODUCTS AND SERVICES

- Solar Dc Cables
- Solen Beam Ebxl Cables
- Battery Storage Cables

ABOUT US

TEM Technical Electrical Materials Industry and Trade Inc. was established in 1989 to produce plugs & sockets and junction boxes.

We still pursue our operations to realize with the same targets. Our experience has placed TEM as one of the leaders of the market with our capacity to develop new products and our attention on following the growing market necessities.

Our range of products includes CEE NORM plugs and sockets, single phase plugs and sockets designed according to different standards, rubber plugs and sockets, combination boxes available on request, sealed thermoplastic junction boxes, plastic distribution boards, modular aluminum multi-sockets, cable pulleys etc.

We work with well-known brands in many countries. We export 60% mainly to the European region. Our biggest markets are France and Poland.

The main categories of companies we work with are:

- Electrical supplies Distributors
- Electrical equipment wholesalers
- Rack Cabinet manufacturers
- Office furniture manufacturers
- Electrical equipment manufacturers

PRODUCTS AND SERVICES

TEM Teknik is a manufacturer company specializing in the production of a wide range of electrical components and systems. Their extensive product line encompasses sockets, industrial enclosures, power distribution units, and office-specific socket groups. With a strong focus on quality and innovation, TEM Teknik is a trusted provider of essential electrical solutions for various sectors and applications.

Major product titles:

- Enclosures
- CEE Norm Plugs&Sockets
- Industrial Sockets
- Power Distribution Units
- Power Strips
- Office Sockets
- Wi-Fi Sockets
- IP-PDU

ABOUT US

Since 1998, Temka Kablo has specialised in the design and manufacture of high-quality cables from our facility in İstanbul, Türkiye. Our continuous investment in process automation enables us to serve both domestic and international distributors, and contractors with reliable, compliant products delivered on schedule.

By putting quality in the center, we enhance our product portfolio and track day by day. We will continue manufacturing coaxial cables, signal and control cables, telecommunication cables, data transmission cables, flexible control cables, fire resistant control cables, instrumentation cables and many special cables.

TEMKA CABLE has taken this qualification as a basic principle and has documented this principle with TSE-TSEK, ISO 9001: 2015, ISO 14001:2015, CE certificate etc. quality documents.

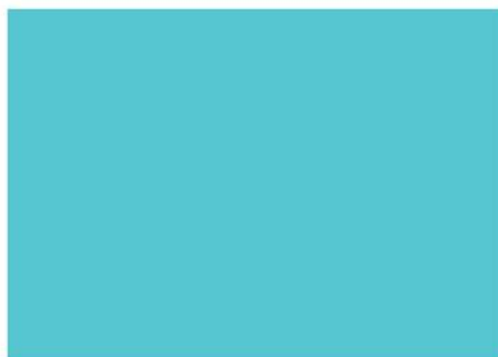

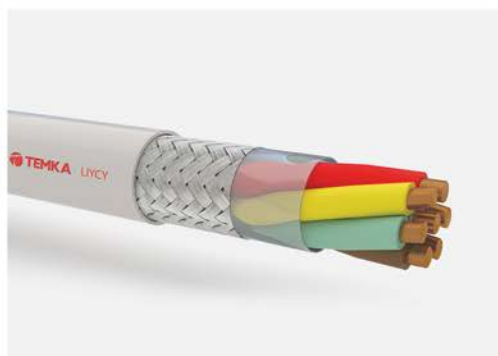

PRODUCTS AND SERVICES

- Coaxial Cable
- CCTV Camera Cables
- Signal and Control Cables
- Fire Alarm Cables
- Fire resistant Cables
- Telecommunication Cables
- Flexible Control Cables
- Data Transmission Cables
- Flat Cables
- Silicon Cables
- Instrumentation Cables

TURKUAZ CABLE

ABOUT US

Turkuaz Cable, Inc., founded in 2000 and based in Gebze, Kocaeli, is a leading Turkish manufacturer of telecommunication cables serving both domestic and international markets. Operating from a 30,000 m² facility with over 100 employees, the company produces fiber optic, copper-insulated telephone, and Data LAN cables, combining advanced technology with operational flexibility.

Quality is central to Turkuaz Cable's operations. Raw materials are carefully selected and tested in-house, while production is managed under ISO 9001:2008 and ISO 14001 certifications. Its products are approved by major operators such as Turkish Telecom, ensuring reliability and long-term performance.

The company prioritizes innovation through continuous investment in research and development, enabling it to deliver efficient, modern, and customized solutions. Its integrated approach covers raw material sourcing, production, logistics, and after-sales support.

Turkuaz Cable has strong production capacity, manufacturing up to 300,000 wire/km of copper cables monthly, and 7,000 km of fiber optic cables. These capabilities support large-scale turnkey telecommunication projects.

With exports to over 80 countries across Europe, Asia, Middle East, Africa, and the Americas, the company has built a strong global presence. Its success in international tenders reflects its competitiveness.

Supported by a skilled workforce, Turkuaz Cable focuses on customer satisfaction, offering reliable, high-quality, and tailored solutions, positioning itself as a trusted partner in global telecommunications infrastructure.

PRODUCTS AND SERVICES

- FIBER CABLES:

- Drop fiber cables (for FTTH use)
- Aerial fig8 fiber cables (can be fiber and or copper)
- Underground fiber cables (can be fiber and or copper)
- Aerial ADSS fiber cables
- Duct fiber cables
- Microduct fiber cables
- Tight Buffer fiber cables
- Indoor/Outdoor LSZH sheathed fiber cables
- Fibers can be SM, OM1, OM2, OM3, OM4 and OM5
- Cables can be from 1 core to 512 cores.

COPPER CABLES :

- Copper Telecom cables from 2 pairs to 1800 pairs for indoor and/or outdoor use.

DATA LAN CABLES

- CAT5E U/UTP
- CAT5E F/UTP
- CAT6 U/UTP
- CAT6 F/UTP
- CAT6 S/FTP
- CAT6A U/UTP

ABOUT US

Established in 2005 in Istanbul, Ünka Kablo is one of Turkey's leading manufacturers of control and instrumentation cables. With a foundation built upon decades of cable production expertise dating back to 1972, our journey has been one of consistent growth and innovation. Now with 2.000 tonnes of annual copper processing capacity, Ünka exports 98% of its production to more than 30 countries.

At Ünka Kablo, we are dedicated to continuous improvement and a customer-centric approach. Our reputation is built on high-quality products, quick deliveries, and competitive pricing. Whether it's control and instrumentation cables, screened or armoured cables, or cables for special applications – we've got the best solutions for you.

Our cables adhere to stringent international standards, including ISO 9001, VDE, Efectis, UKCA, CE, Reach, and RoHS regulations. We thrive on challenges, and our expert staff is always ready to design and manufacture customized cable solutions that align with our customers' unique requirements.

In every production process, we test our cables. As part of our quality commitment, final quality control tests are made on each and every cable drum that is being shipped. With our advanced ERP system, we can trace our products back to their raw materials.

PRODUCTS AND SERVICES

Control Cables (300/500V, 0.6/1kV)

- YSLY & HMH (HSLH)
- YSLYSY (YSLYAY) & HSLHSH
- YSLCY & HMH-C (HSLCH)

ABOUT US

ÜNTEL KABLO, one of leading cable manufacturers in the world was established in 1972, Turkey. With over 50 years of experience, continuously develops and optimize her product range with the help of advanced technology and well trained staff.

Product range consists over 24.000 different types of cables, covers both rubber and thermoplastic cables up to Medium Voltage (MV) range. ÜNTEL's power and instrumentation cables supplies energy for industries which requires experience like marine, offshore, mines and tunnels, airports, railways and have been used in industrial ways such as heavy-duty rubber drum reeling cables, welding cables, control cables and fire resistant cables. ÜNTEL is also able to produce tailor made products for special purposes. Today these products are exported over 100 countries on six continents. By the end of 2009, ÜNTEL finalized the investment of a new high-tech plant near Istanbul. Now continues her operations on 43.000 m2 land space with 32.000 m2 closed area. By having 3.000 tons copper drawing and 4.000 tons different type of compound processing capacity, ÜNTEL produces 30.000 tones of cable per year. By means of new factory building, state of the art machines and unique ERP system investments ÜNTEL aimed absolute customer satisfaction.

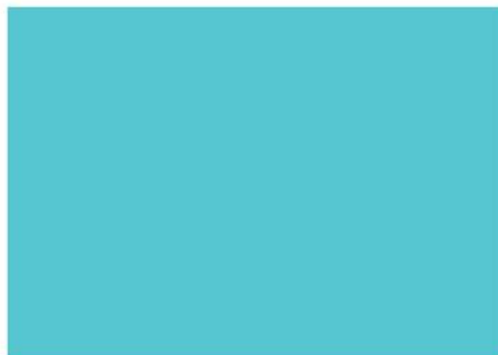

PRODUCTS AND SERVICES

- Industrial Cables
- Marine Cables
- Offshore Cables
- Mining Cables
- Tunneling Cables
- Railway Cables
- Airport Cables
- Crane Cables
- Defense Industry Cables
- Instrumentation Cables
- Electric Vehicle Charging Cables

CERTIFICATES

- ABS, DNV-GL, VDE, BV, LR, RINA,
- UL, TURKISH LLOYD.

VEKSAN LIGHTING

ABOUT US

We are one of leading LED lighting manufacturer operating in 5500m2 factory in Türkiye.

We focus satisfy customers needs with quality , efficiency and flexibility since 1987.

We export our products regularly to EU and have experience with service to that market.

PRODUCTS AND SERVICES

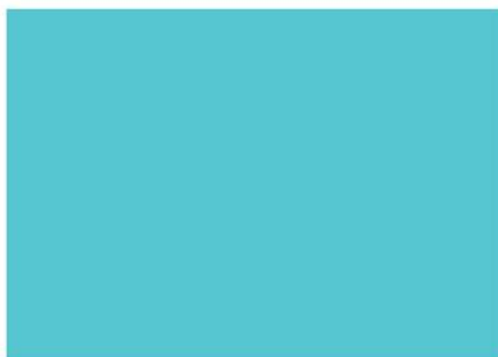

For offices, schools, hospitals, factories, supermarkets we manufacture;

- Linear aluminium profile products
- Steel Sheet 60x60 types,
- Industrial products .

CERTIFICATES

- CE
